PHASE 2: PAID ADVERTISING (FUTURE ADD-ON)

Every package is built with Phase 2 in mind. The strategy: grow the following organically first — building real fans, genuine engagement, and a proven content formula. Once that foundation is solid, Verix AI pours fuel on the fire with paid advertising.

Running ads to a cold, empty account wastes money. Running ads to an engaged, growing audience multiplies results. That's why Verix AI builds first and advertises second.

- Facebook & Instagram Ads — targeted to music fans in your genre, age group, and geography

- TikTok Ads — boosting top-performing organic content to amplified audiences
- YouTube Pre-Roll Ads — getting the music in front of the right listeners
- Retargeting Campaigns — converting profile visitors and video viewers into followers and streams
- Ad creative already handled — every piece of Phase 1 content is built to paid ad spec

Paid ad management is priced separately and discussed at the 3-month review. Ad spend is paid directly to the platforms.

Terms & Next Steps

ONBOARDING FEE

A one-time onboarding fee of \$200 applies to all packages. This covers the full account audit, profile optimization across all platforms, bio rewrites, link-in-bio setup, brand voice document, and content strategy kickoff.

CONTRACT & PAYMENT

- All packages require a 3-month minimum commitment — enough time to build genuine momentum and deliver meaningful results.
- Payment is due on the 1st of each month. A signed agreement is required before work begins.
- After the initial 3-month term, packages roll month-to-month with 30 days' written notice required to cancel.

WHAT HAPPENS AT MONTH 3

At the end of the initial 3-month term, Verix AI will review performance with the band, assess growth, and discuss whether to continue, upgrade, or add paid advertising management. This checkpoint keeps goals and results aligned.

CONTENT SUBMISSION GUIDELINES

- Raw footage should be submitted via Google Drive, Dropbox, or an agreed file-sharing platform.
- Footage submitted by Monday each week will be prioritized for that week's posting schedule.
- The more footage provided, the more content Verix AI can create — quantity of raw material directly impacts output quality and variety.

PHASE 2: PAID ADVERTISING ROADMAP

The goal of Phase 1 is to build a real, engaged audience before spending a dollar on ads. Once follower count, engagement rate, and content library are strong enough, Verix AI moves into Phase 2 — amplifying everything that's already working organically.

Organic growth is the spark. Paid ads are the fuel. You don't pour fuel on nothing — you build the fire first, then accelerate it.

Phase 2 ad management is discussed and priced at the 3-month review. Ad spend is billed directly by the platforms and is separate from management fees.

Ready to grow? Let's build something great.
